FOREWORD

The Statistical Brief report series is designed to provide timely and essential statistical information on Texas public elementary and secondary education. Each report addresses a specific area and will be released as soon as possible after the data used in the report are officially added to the TEA Data Base.

Education topics in this series include student enrollments and attendance, revenues and expenditures, professional personnel and salaries, and Foundation School Program information. Topics which may be added to the series in the future include school transportation, vocational education, and special education.

This report series is unique in two ways. First, the reports were designed to include information most frequently requested from the TEA Data Base. Those who need these data should find this series very useful. In addition, the Statistical Brief tables and text are computerized. This capability permits rapid update of the reports and will improve the accuracy of the report information.

The Statistical Brief reports are intended to meet the Texas public education information needs of education administrators, policymakers, researchers, and the general public. Although the basic nature of the information in the Statistical Briefs should meet the education data needs of the foreseeable future, the contents and format of the reports are flexible. Formats may be altered to meet the demand for new educational data as laws and policies are changed, new issues emerge, or the general need for information moves in a new direction. Statistical Brief users are encouraged to submit suggestions toward improving the reports.

FALL SURVEY OF STUDENTS IN TEXAS PUBLIC ELEMENTARY AND SECONDARY SCHOOL DISTRICTS 1978-79

I. INTRODUCTION

This report contains statistics on students by ethnicity, sex and grade collected during the fall of the 1978-79 school year by the following TEA report:

Fall Survey, Campus Form 1 - Pupils in Membership, Fall 1978

The statistical universe for this annual data collection is all student members of Texas public elementary and secondary schools during the first week of October.

Principal authority for collection of this data is Civil (Court) Action 5281. These data are also used to complete reports requested under the National Center for Education Statistics Common Core of Data (CCD) program (20 U.S.C. 1221e-1).

Fall survey student data are routinely used for TEA planning and decision making. They are also used to estimate the number of students to be tested by the Texas Assessment of Basic Skills each spring.

Statistical Brief SB79FSY is an original report and updates no previous report in this series. Further information on the topic of this report can be obtained by writing the Director, Division of Information Analysis, Texas Education Agency, 201 East Eleventh Street, Austin, Texas 78701.

II. SUMMARY DISCUSSION

Fall survey data indicate decline in the number of white students and rapid increase in the number of minority students from 1969-70 to 1978-79. The data also show uneven distribution of minority students among the state's public school districts.

Fall Membership Ethnicity by FSP District Status, 1978-79

Nearly 2.9 million children were Texas public school students in the fall of the 1978-79 school year. Regular Foundation School Program (FSP) districts held the bulk of the students with special statutory and state administered districts accounting for 19,000 more students or about 1 percent of the total.

Table II-1 summarizes the 1978-79 fall student count for ethnic categories by type of district. This table also shows the number of active public school districts for 1978-79.

West Texas Children's Home ISD (238-905) did not return a fall survey for 1978-79. This district is included in the "No. of Active Districts", but no student counts are included.

See Tables III-3 and III-4 for more detailed information on individual districts in these categories.

The bulk of pre-kindergarten (PK) students are enrolled in special population education programs. Therefore, this grade level has a smaller student count than higher grade levels. Since special population education includes pre-school "start up" programs for limited English-speaking and educationally disadvantaged children, high rates of minority participation are typical.

Changes in Fall Membership, 1969-70 to 1978-79

Table II-3 presents student ethnic count and percent data for 1969-70 to 1978-79. The table shows that minority groups grew by more that 238,000 students, while the number of white students declined by nearly 33,000. The net total increase from 1969-70 to 1978-79 was over 204,000 students. Increases among hispanic and black students accounted for 94 percent of the minority growth for this period.

See Table III-5 for more detailed information on historical fall survey student ethnic counts.

The count of Asian students reported in 1978-79 was triple the figure reported in 1969-70. The American Indian student count grew more than 40 percent over the same period.

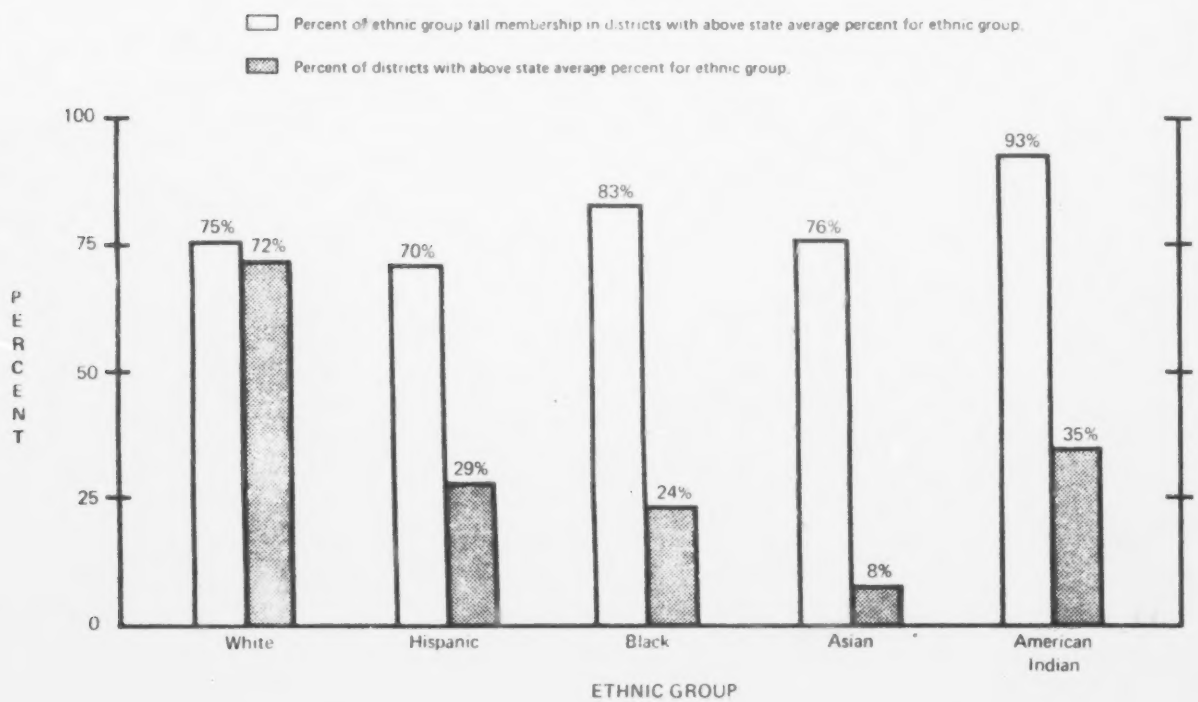
Distribution of Ethnic Membership in Texas Public School Districts, 1978-79

Although white students were as a whole evenly distributed among the state's public school districts, minority students were not.

Figure II-1 shows that 3 out of 4 white students attended districts which had a percent of white students higher than the statewide average. In contrast, minority students were concentrated in relatively few districts. Over 500,000 hispanics were counted in just 317 of the 1,100 reporting districts. Nearly 360,000 blacks were concentrated in only 262 districts. Asian and American Indian students, though fewer in number than hispanics or blacks, were concentrated in even fewer districts.

FIGURE II-1

Percent of Fall Membership and School Districts with Above State Average Ethnic Group Percent by Ethnic Group 1978-79



Example Interpretation: Twenty-nine percent of the school districts have above average percentage of Hispanic membership. Seventy percent of Hispanic students are concentrated in these districts.

Source: TEA, Fall Survey Campus Form 1 - Pupils In Membership, Fall 1978

Overall, 7 out of 10 districts had above average concentrations of white students and below average concentrations of minority students. Table II-4 shows that 49 districts reported no minority students, while 9 districts reported no white students.

Table III-1 gives student counts for various school finance reporting categories frequently used at TEA. This table indicates that the two largest minority groups, hispanics and blacks, had above statewide average concentrations in large urban districts. White student concentrations were well above the statewide average in suburban districts, rural districts and districts with less than 1,500 in average daily attendance (ADA).

Many of the school districts administered by state agencies had black student concentrations in excess of the statewide average. Table II-5, which gives student ethnic group total count and percent by administering state agency, shows that correctional institution districts had more than twice the statewide average proportion of black students.

West Texas Children's Home ISD (238-905), administered by the Texas Youth Council, did not return a fall survey for 1978-79. UT System enrollment comes from Moody State School ISD associated with the UT Medical Branch in Galveston, Texas.

See Table III-4 for more detailed information on state administered districts.

III. DETAILED TABLES

Much of the information used to prepare the Section II analysis is contained in this section. Each table presents fall survey students by ethnicity organized as described below:

Table	Organization	District Coverage	Page
III-1	TEA ANALYZE Report Categories	Regular FSP Districts Only	8
III-2	ESC Regions	All Active Districts	9
III-3	Regular FSP Districts with Estimated County Totals	Regular FSP Districts Only	10
III-4	Special And State Schools	Special and State Districts Only	48
III-5	Historical State Totals 1969-70 to 1978-79	All Active Districts	49

NOTES: County totals in Table III-3 are termed "estimated" because school district and county boundaries frequently overlap. True county totals exist only for those counties where all school district boundaries coincide with county boundaries.

ANALYZE report categories are special district groupings used by TEA.

Fall Survey - Historical Background and Data Considerations

The fall survey was instituted in the fall of 1969. Since that time two major changes have been made which affect both the collecting and reporting of the data. First, reference names for four of the five major ethnic categories have been changed (see Table II-3). Second, a count of students by sex was added to the fall survey beginning in 1976-77.

Several considerations apply to this report:

1. Although data are presented down to the school district level of detail in Tables III-3 and III-4, fall survey information is collected by grade level for each school campus.

2. All students were assigned by school district personnel to one of the major ethnic categories, regardless of whether any of the categories was completely appropriate to a given student.

3. Although student counts were to be reported for the first week in October, actual counts may apply to different data collection dates.

4. Finally, data for 1,100 active districts are presented in this report. However, one district (West Texas Children's Home ISD) did not submit a fall survey for 1978-79. No actual or estimated student count is given for this district in the text or in any of the tables.

Fall survey counts are not strictly comparable to any student count shown in the Superintendent's Annual Report (S.A.R.) for the same school year.

Annotated Definitions of Terms

ACTIVE SCHOOL DISTRICT: Any public school district which operates a school each school year. (See Section 19.246(b) of the Texas Education Code).

ANALYZE REPORT CATEGORIES: Special district groupings of regular Foundation School Program district data used by TEA. These categories are defined as

- MAJOR URBAN Districts: Districts which are associated with the central cities of the state's seven largest Standard Metropolitan Statistical Areas (SMSA's). SMSA's are defined by the U.S. Bureau of the Census.

- OTHER CENTRAL CITY Districts: Districts which are considered by TEA to be most central to the state's remaining SMSA's.

- SUBURBAN FAST GROWING Districts: Suburban districts with which grew at least five percent from 1970 to 1975.

- SUBURBAN STABLE Districts: Suburban districts which did not grow at least five percent from 1970 to 1975.

- NON-METRO WITH 1,000 ADA Districts: Districts which have 1,000 or more refined ADA and which are not included in previous categories.

- NON-METRO WITH TOWN Districts: Districts which have less than 1,000 ADA and which encompass a town.

- RURAL Districts: Districts which have less than 1,000 ADA and which have no central town within their boundaries.

CORRECTIONAL INSTITUTION: A state facility provided for the rehabilitation of adult or juvenile offenders. In Texas, adult offenders are interned in Department or Corrections prison units, while Juvenile offenders are placed in Texas Youth Council centers.

COUNTY-DISTRICT NUMBER: A six-digit TEA code which uniquely identifies each Texas school district. The first three digits identify the county in which the district administrative offices are located. The last three digits identify the type of district as follows:

000 thru 099 - Common School District
701 thru 799 - Rural High School District
901 thru 949 - Independent School District

EDUCATIONALLY DISADVANTAGED PERSON: A person "who, because of academic, social or economic handicaps, cannot succeed in regular education programs and is in need of specialized programs of instruction in order to qualify for entrance into regular programs or to accept employment in occupations requiring a lesser degree of skill and technical knowledge." (See TEA, Bulletin 679, Financial Accounting Manual, Procedure CDE-410, p. 1, May 15, 1977.) Federal statutes and regulations refer to "educationally deprived persons" in the same context. Local public school districts have considerable latitude under present law to establish levels of competency below which a student is classified as "educationally disadvantaged".

EDUCATION SERVICE CENTER (ESC): A special intermediate level agency established to provide planning, coordination and other special services to public school districts within a defined geographic region of Texas. (See Sections 11.32 and 11.33 of the Texas Education Code .)

EFFECTIVE TAX RATE: The tax rate which, when applied per $100 market property value, gives the amount of taxes to be levied by a governmental jurisdiction. Normally, school districts report only nominal tax rates which produce the same amount of tax levy when applied per $100 assessed property value. Assessed value is commonly a fractional part of market value and is the result of applying an assessment ratio to market value. For instance, if a district uses an assessment ratio of 50 percent, that district's assessed value will represent only 50 percent of its market value. In theory, effective tax rates "equalize" taxing effort among school districts, allowing tax effort comparisons. However, such comparisons assume among other things that all eligible market value in each district has been discovered and accurately appraised at a recent date.

ELEMENTARY SCHOOL: A school which provides instruction for students who are enrolled in pre-kindergarten through grade 8.

ETHNIC GROUPS (CATEGORIES): Racial/ethnic groups are defined as

1. AMERICAN INDIAN OR ALASKAN NATIVE: A person having origins in any of the original peoples of North America.

2. ASIAN OR PACIFIC ISLANDER: A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Pacific Islands.

3. BLACK, NOT OF HISPANIC ORIGIN: A person having origins in any of the black racial groups.

4. HISPANIC: A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish Culture or origin, regardless of race.

5. WHITE, NOT OF HISPANIC ORIGIN: A person having origins in any of the original peoples of Europe, North Africa, the Middle East or the Indian Subcontinent.

Race/ethnic designations as used by TEA do not denote scientific definitions of anthropoligical origins. For the purpose of this report, a student may have been included in the group to which he or she appeared to belong, identified with, or was regarded in the community as belonging. However, no person should have been counted in more than one race/ethnic group.

FOUNDATION SCHOOL PROGRAM (FSP): A program of state government financial assistance created "to guarantee that each school district in the state has adequate resources to provide each eligible student a basic instructional program suitable to his educational needs." Under the FSP, eligible districts receive state aid for "minimum personnel salaries, current operating expenses, categorical program aid, and transportation services. The amount of state aid shall be based on the district's ability to support its public schools." (See Sections 16.002 and 16.004 of the Texas Education Code.)

MINORITY: All or any portion of the non-White students in a public school.

PUBLIC SCHOOL CAMPUS: An administrative unit of a public school district which serves students enrolled in a limited number of grades and which usually has its own grounds, buildings and other facilities.

PUBLIC SCHOOL DISTRICT: A political jurisdiction created under state law for the general purpose of providing an education to all eligible students who enroll in its educational programs. (See Chapter 19 of the Texas Education Code.)

"REGULAR FOUNDATION SCHOOL PROGRAM (FSP)" PUBLIC SCHOOL DISTRICT: A district created under general statutory authority which is eligible for state funding assistance through the Foundation School Program. These districts have geographic boundaries with corresponding property value as well as taxing authority. They are administered by a locally elected school board.

SECONDARY SCHOOL: A school which provides instruction for students who are enrolled in grades 9 through 12.

SPECIAL POPULATION EDUCATION: Programs designed to meet the special educational needs of limited student populations, i.e., handicapped, limited English-speaking, educationally disadvantaged, etc.

"SPECIAL STATUTORY" PUBLIC SCHOOL DISTRICT: A district created by special legislative act but not administered by a state government agency. Examples are the public schools associated with military bases near San Antonio and the Masonic Home schools in Fort Worth.

"STATE ADMINISTERED" PUBLIC SCHOOL DISTRICT: A district created by legislative act which is both funded and administered by a state government agency. Most of these schools are administered by the Texas Department of Mental Health and Mental Retardation and the Texas Youth Council. In addition, the Texas State Board of Education oversees the Texas State Schools for the Blind and Deaf, and the Texas Department of Corrections operates the Windham Schools. The University of Texas System operates Moody ISD which is associated with the UT Medical Branch Hospital in Galveston, Texas.

STATISTICAL UNIVERSE: The complete collection of persons or other units of study to which the findings and conclusions of a statistical analysis apply.

Technical Notes

Average Percent Ethnic Group Calculation:

For a given ethnic group, the average percent that ethnic group represented of total students is calculated as

Pct Ethnic Group =
(100 * Ethnic Group Student Count) / Total Student Count

County Estimates:

County totals in this statistical report are termed "estimated" because school district and county boundaries frequently do not coincide. True county totals exist for only those counties where all school district boundaries coincide with county boundaries.

Rounding Errors:

All percentage calculations have been rounded to a single decimal place. Consequently, table percentages may not sum to exactly 100.0 percent.

Prior Fall Survey Statistical Briefs

No prior fall survey Statistical Briefs currently exist.
